This office action is in response to the amendment filed February 27, 2004. The changes to the claims are acknowledged. Claims 52-58 and 65-69 remain under consideration.

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dawn Wolff on June 2, 2004.

The application has been amended as follows: Claims 1-51 and 59-64 are canceled. It is noted that these claims were previously withdrawn from consideration as they were directed to inventions which were not elected in the Election filed August 8, 2003.

#### ***Allowable Subject Matter***

Claims 52-58 and 65-69 are allowed. Applicant amended claim 52 to further recite that the lower end is selectively openable, and that it includes a closure to selectively open the protector to receive the cable and close the lower end for burial. New independent claims 65 and 68 are similar to claim 52 in that they also recite that the protector includes spaced apart sidewalls having upper and lower portions, with the upper portions defining a closed upper edge, and the lower portions being selectively closeable by a closure for burial. As noted in the last

Art Unit: 2874

office action at p. 5, the previously applied references all teach open lower ends and do not mention any need or purpose for closing them by joining the sidewalls. Accordingly claims 52-69 are considered allowable over the references of record.

***Conclusion***

Any inquiry concerning this communication should be directed to Mike Stahl at (571) 272-2360. Official communications which are eligible for submission by facsimile and which pertain to this application may be faxed to (703) 872-9306.
